EDUCATION

Addis Ababa University

B.Sc. in Software Engineering

Relevant Courses: Software Engineering, Relational Databases, Object-oriented programming, Data Structure and Algorithms, Computer Network and Security, Computer Architecture and Organization.

Addis Ababa, Ethiopia

July 2027

ALX Africa

Cloud Engineering | Backend Development | DevOps

Relevant Courses: Cloud Computing, Backend Development, Databases, Containerization, Cloud Architecture, Cloud Solutions, Network and Security, DevOps, MicroServices.

Addis Ababa, Ethiopia

Aug 2025

EXPERIENCE

AWS Cloud Clubs

AWS Cloud Captain,

- Built and led a community of 300+ members, fostering collaboration through events, workshops, and mentorship while empowering students to learn and apply AWS services such as EC2, S3, Lambda, and IAM to real-world projects.
- Organized and facilitated **workshops and tutorials**, mentoring students on cloud architecture design, deployment, and best practices.

Addis Ababa, Ethiopia

May 2025 - Present

ALX Ethiopia

Student Ambassador and AWS Cloud Mentor

- Represented the **ALX community** at Addis Ababa University, promoting programs in **cloud computing, Software Engineering, AI, and leadership** to peers and student networks.
- Engaged and supported **50+ students**, guiding them through enrollment, onboarding, and navigating ALX learning platforms.

Addis Ababa, Ethiopia

April 2025 - Present

iCog Labs

Machine Learning Engineer Intern

- Developed and tested **AI and machine learning prototypes** using **Python** and **MeTTa**, enhancing reasoning and knowledge representation workflows and supporting experimental research initiatives.
- Collaborated with a multidisciplinary team of **researchers**, designing experiments, analyzing results, and refining algorithms, resulting in **improvements** in model performance.
- Produced **well-documented scripts, modules, and technical reports**, ensuring reproducibility, maintainability, and effective knowledge transfer for ongoing AI research projects.

Addis Ababa, Ethiopia

July 2024 - Sept 2024

PROJECTS

[Intelligent Compliance Analysis for Financial Services](#)

- Developed an AI-powered platform that automates compliance analysis for financial services using advanced NLP and Retrieval-Augmented Generation (RAG) techniques.
- Implemented scalable data processing pipelines, integrated FAISS-based vector search, and built interactive evaluation tools to ensure robust, efficient, and explainable compliance workflows.

[End-to-End Insurance Analytics](#)

- Built an end-to-end analytics pipeline for car insurance data, including data cleaning, statistical analysis, visualization, and machine learning modeling to optimize risk assessment and marketing strategies.
- Automated KPI reporting and segmentation using Python (pandas, scikit-learn, seaborn), enabling data-driven insights for identifying low-risk clients and improving business decision-making.

CERTIFICATIONS

- Google Cloud: [Professional Machine Learning Engineer](#)
- SAA-C03: [AWS Certified Solutions Architect- Associate](#)
- CLF-C02: [AWS Certified Cloud Practitioner](#)
- KCNA: [Kubernetes and Cloud Native Associate](#)

SKILLS

Programming Languages: Python | JavaScript | TypeScript | SQL & NoSQL | Bash | HTML | CSS |
Frameworks and Tools: Django | FastAPI | AWS | Google Cloud | Docker | CI/CD | MLflow | ML Frameworks
